

THE AUBO DIFFERENCE

COBOT OVERVIEW & COMPANY BRIEF

i-Series Collaborative Robots

i3

3kg Payload
625mm Reach
±0.02 mm Repeatability

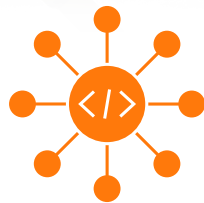

Safer Operation

AUBO cobots leverage advanced sensors for collision detection, ensuring immediate deceleration or halting to prevent accidents.

i5s

5kg Payload
886mm Reach
±0.02 mm Repeatability

Open Architecture

If you can think it, you can do it. AUBO Cobots feature open architecture design, enabling robust secondary development options to save your business money, time, and resources thanks to customizability.

i10

10kg Payload
1350mm Reach
±0.03 mm Repeatability

Higher ROI

On average, AUBO Cobots offer 6-9 month ROI and deliver better value for performance than the competition, without sacrificing customizability, speed, or precision.

i16

16kg Payload
967.5mm Reach
±0.03 mm Repeatability

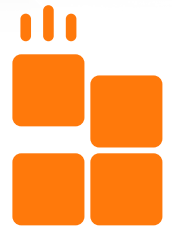

Rigorously Tested

AUBO Pushes its cobots to the limit so you can too. AUBO Cobots run the gauntlet of over 600 tests from IQC to QA, allowing us to control even the slightest inconsistencies in its overall durability, longevity, and design.

i20

20kg Payload
1650mm Reach
±0.1 mm Repeatability

Flexible & Modular

Every AUBO Cobot is designed to be fully modular, so in the rare case that a cobot needs servicing any joint can be swapped out quickly and easily, minimizing downtime.

Dedicated to The United States

AUBO Robotics established its US Headquarters in Detroit, Michigan in 2022.
Expanding its business operations 13+ years to serve the United States & Canada.

The smartest choice for adopting a collaborative automation workflow,
all AUBO cobot arms purchased in the United States directly from
one of our US-based key strategic distribution partners or the
AUBO Robotics Headquarters in Detroit, Michigan.

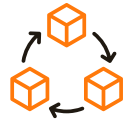

AUBO Robotics USA offers several benefits to its U.S. Customers,
including dedicated U.S.-based technical service and support,
hassle-free RMA and Servicing, short lead times on in-stock cobot
arms and parts, plus a full-service training center for customers. AUBO
Offers all of its products to US and North American customers through AUBO's vast
ecosystem of distribution, integration, and OEM partners.
